"AGRICULTURAL OPPORTUNITIES IN WESTERN CANADA". ✓

Scenic - Screen time 15 minutes.

Released through General Film.

The opportunity for those who are thinking of settling in land where the soil is prolific will be unusually interested in this Essanay scenic reel.. It shows the tremendous output of the Canadian soil and the open country still waiting to be sown. It reveals how the land is irrigated by the many dams, the Brooks aqueduct, the cutting of alfalfa, the industries of dairying, chicken raising, sheep raising and woolen milling. You will also see the ultra modern methods of sanitary milk handling in the dairies by electricity, which power, as is also shown, even serves in the threshing of the grain.
